What is the New Fad for 2020 you might ask...... VOLUNTEERING!!!

Catholic Charities of the Diocese of Ogdensburg hosts 2 Volunteer Programs that may interest you. The Foster Grandparent Program and The Retired and Senior Volunteer Program. The Corporation for National and Community Service is a federally funded agency that has built volunteer based programs over 50 years and counting. Two of these programs are right in your backyard.

The Foster Grandparent Program of Northern New York purpose is to provide opportunities for low income persons aged 55 and older, to provide person to person services in health, education, and the welfare of children ages 21 and below. Foster Grandparents are placed in a classroom setting with a child or children who are in need of emotional support, development of basic learning skills, to provide friendship, companionship, encouragement, individual attention, and unhurried help. The Foster Grandparent also receives a small non-taxable stipend bi-weekly that cannot be held against any current benefits you may already have and you also get paid mileage for your travel. You receive paid holidays, vacations, sick and personal leave. The program currently has 40 volunteers and serves more than 100 kids per year. “Sometimes when you get to be my age, you wake up and say what good am I” and along came the Foster Grandparent Program that keeps me going! (Quote from the late Roy Foote age 83). If you think that this is something that you may be interested in please see the contact information at the bottom of the page.

The Retired Senior Volunteer Program of Franklin and Hamilton Counties purpose is to provide meaningful volunteer opportunities for older Americans. RSVP volunteers provide service to those that prove to be in need throughout Franklin and Hamilton Counties. The volunteer hours served will help not only the people served but their families as well. Volunteer hours will encourage healthy living and independence and help to combat loneliness and depression, and give the youth of our community an upper hand in education. This goal will be accomplished by placing volunteers with homebound and hard to reach elders/and or children by providing friendly visiting, running errands, medical transport, delivering meals, friendship and assisting children with reading and tutoring. We also provide reimbursement for your travel.

Author Geoffrey Chaucer lived in the Middle Ages, the era of courtly love, when broad, romantic statements of devotion—poems, songs, paintings—celebrated partnership. By the end of the 15th century, the word “valentine” was being used to describe a lover in poems and songs of the day, and in the 18th century, a book called The Young Man’s Valentine Writer was published in England. By the mid-19th century, mass-produced paper Valentine’s Cards were being created (though Valentine card ideas are still worth trying), and Valentine’s Day as we know it was born.

The truth about Valentine’s Day history is that the romantic holiday isn’t immune to trauma. In Prohibition Chicago in 1929, seven men were killed by a gang organized by Al Capone on February 14. The Valentine’s Day Massacre became a flashpoint in Prohibition history, with police and lawmakers going after the gangs and mobs that had formed in cities to control then-illegal substances like alcohol.

What is the meaning of Valentine’s Day?

Over the years (and centuries), Valentine’s Day has been a religious celebration, an ancient ritual day, and a commercial holiday. All that change means the meaning of Valentine’s Day is truly whatever you want it to be: You can skip the celebrations completely, buy yourself some chocolate or flowers, or express your love and appreciation for the people in your life, whether they’re co-workers, romantic partners, friends, or family members. Some people love Valentine’s Day, and some people just love to hate it; Galentine’s Day (and Galentine’s Day gifts) are a relatively new way to celebrate, as women stock up on Valentine’s Day ideas for her and celebrate their love for their closest friends.

If you’re trying to figure out what to do on Valentine’s Day, just know that there are no rules: It’s a new era, and you can celebrate the day of love however you want, even if it’s just through self-love. A nice dinner out, going to the movies, cooking a fancy meal at home, or hosting a Valentine’s Day party are also great ways to celebrate; whatever you do, if you have a romantic partner, just make sure you’re on the same page to avoid any disappointments or hurt feelings.

Do you all remember Nancy Vosbrink who was our Caregiver Coordinator? She remembers us and asks about everyone all the time. After her departure from our center she moved to Pennsylvania with her husband, Walter, and I would like to report that they are now in CALIFORNIA! I mean, could she get any further away?

While in PA, she searched for their dream job and they connected with a young man from LA that owns a 320-acre property in the middle of the Sequoia National Forest. After a quick visit, as she describes, a beautiful and rugged country area, they returned to PA and packed up and headed west.

Their new home is powered by Solar Energy and Nancy and Walter provide security to the property and maintenance. In the future they will manage a couple of Air B&B places. She reports that the forest is closed for 6 months out of the year and they are in the inside, with their mailbox being 40 minutes away! I guess we could say that it was just in time to be isolated. They did have to keep an eye out for the fires that were closing in on them and thankfully they were safe. There is a helicopter pad located on the property for an emergency back-up plan.

We wish the both of them great success and to stay safe and healthy. We miss our Nancy. We look forward to more updates and beautiful pictures in the future!

FEBRUARY HOROSCOPES

Aquarius: Jan. 20–Feb. 19

The main plot of 2021's astrology reaches its first of three pinnacles this month. Consider this, dear Aquarius; who you are becoming and growing into requires an honest reckoning with your past. Allow for new narratives and different versions of the same stories shared within your family to blossom from deep within. You might just discover truths that give you permission to free yourself from the burdens of yesterday.

Pisces: Feb. 20–March 20

There is a turbulent storm brewing deep inside you. The tension between going inward and the urgency to externalize is poignant and loud this month. Take some time processing your thoughts and feelings so you can translate them into coherent words. New insights become more available if you allow yourself stillness and solitude. Don't miss out on other people showing their true colors. Pay attention.
The SRMT Office for the Aging receives funding and support from the NYS Office for the Aging, Area Association on Aging, Title VI Native American Program, and the Tribal General Fund.
